2. Guidelines set out the EBA's view of appropriate supervisory practices within the European System of Financial Supervision or of how Union law should be applied in a particular area. Competent authorities as defined in Article 4(2) of Regulation (EU) No 1093/2010 to whom guidelines apply should comply by incorporating them into their practices as appropriate (e.g. by amending their legal framework or their supervisory processes), including where guidelines are directed primarily at institutions.

## Reporting requirements

3. In accordance with Article 16(3) of Regulation (EU) No 1093/2010, competent authorities must notify the EBA that they comply or intend to comply with these guidelines, or otherwise provide reasons for non-compliance, by 16/02/2021. In the absence of any notification by this deadline, competent authorities will be considered by the EBA to be non-compliant. Notifications should be sent by submitting the form available on the EBA website with the reference 'EBA/GL/2020/14'. Notifications should be submitted by persons with appropriate authority to report compliance on behalf of their competent authorities. Any change in the status of compliance must also be reported to the EBA.

## 2. Subject matter, scope and definitions

### Subject matter

that observe a leverage ratio exposure measure exceeding EUR 200 billion on a consolidated or individual basis, respectively (and including insurance subsidiaries), using an adequate exchange rate that takes into account the reference exchange rate published by the European Central Bank applicable at the financial year end and international standards ('relevant entities').

### Addressees

7. These guidelines are addressed to competent authorities as defined in point (i) of Article 4(2) of Regulation (EU) No 1093/2010 and to financial institutions in relation to which these guidelines apply. The memorandum items should be complemented with detailed comments from relevant entities regarding data quality and availability where appropriate.
- 10a. Pursuant to Article 131(2a) of Directive 2013/36/EU requiring an additional identification methodology that excludes cross-border activities within the Single Resolution Mechanism (SRM), and in accordance with the international agreement by the Basel Committee of 31 May 2022 to acknowledge the progress made in the development of the European Banking Union, data items relevant for the calculation of adjusted SRM cross-jurisdictional indicators concerning institutions headquartered in Member States participating in the SRM should be considered as part of the cross-jurisdictional activity indicators and, as such, disclosed in accordance with paragraph 12, and not as ancillary or memorandum items for the G-SII identification and subcategory allocation methodology.
