# 1. Introduction

---

This document is meant as a reference for all applicants and those potentially interested in applying for a career within the European Banking Authority (EBA). It provides tutorial instructions on how to apply using the EBA's [eRecruitment platform](#).

This manual guides applicants through all necessary steps to create an account and submit an application.

## 1.1 EBA's eRecruitment platform

For its selection procedures the EBA uses an electronic recruitment system designed to simplify the application process for candidates, and to maximise EBA's talent sourcing and screening efforts.

Please note that the creation of your candidate profile does not imply any commitment on the part of the EBA. To be considered as a candidate in a selection procedure, you need to submit an application form for each specific EBA job vacancy published that you are interested in.

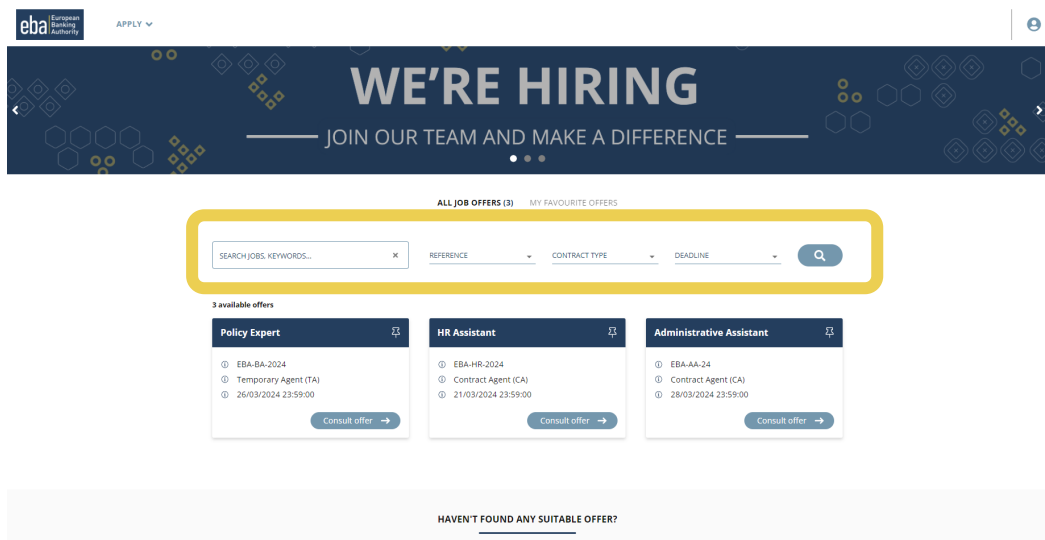

Applicants can update their candidate profile at any time. The updated information will pre-fill the future applications the candidate submits. The prefilled application form for a specific job vacancy can be modified at any time during the application process.

The different sections of the application form are meant to assess the candidate's technical and behavioural competencies required according to the job profile. The Selection Board assesses submitted applications based on the evidence provided by the applicants on their knowledge, experience and competencies, with the aim to select the best candidates that correspond to the profile sought to be shortlisted for further assessment.
